Important Message to Our Members

From time to time, you may receive emails, phone calls and most recently text messages claiming to be from a particular credit union or other financial institution stating that there is a problem with your account and/or ATM/Debit card. The message or call will request that you provide personal information over the phone or thru a website that mirrors the appearance of your financial institution's website. It's very possible that you may receive messages from financial institutions where you have never had an account; the emails, calls, and text messages are random selections and sent to millions of individuals.

The above scenarios are all SCAMS!

Valley Bell Credit Union will never contact members in this manner to request personal account information.
